

Dear FCC.....Do Not bend to the pressure of private organization. Do not repeal this law. If the FCC decides to repeal this law then you must enact 2 new points of legislation to go along with it:

1. Provide a published list of all FCC officials' home phone numbers so that when NJ residents receive a telemarketing call we can forward that call directly to the officials to see how they like it.
2. All FCC officials will resign their positions immediately due to the fact that we the tax payers pay their salary, subsequently they are employees of us, and they should consider themselves fired for incompetence.

Thanks
